Engistrate V.O. Hikel today sent a lelegram of congratulations to Dert Vemp, newly elected Mayor of Toronto. The message stated... "Congratulations on victory in hard fought contest. Tleased to see a Belleville boy and descendent of Bay of Quinte United Empire Loyalist, as Mayor of Toronto. May success attend your public and private activities." Bert S. Wemp, city editor of the Toronto Telegram and a flyer of note in the Great Mar, has risen to the highest position in Toronto, by his election yesterday. He was born in this district. Some years ago his family moved to Toronto and Bert Wemp entered the service of the Toronto Telegram. Be worked through the mechanical departments, and rose from reporter to the city editor's chair, a position which he filled with dignity. When the Great War broke out he answered the call, and made a name for himself for his during and brilliant work.

Mr. W.M. Logan of Hamilton, grand secretary of the Masonic Grand Lodge in Ontario, is visiting in the city.

Rev. Dr. R.C. Blagreve, past grand chaplain of the Basonic Order in Ontario, is in the dity today.

Masonic Deputy Grand Faster W. S. Herrington, K.O. of Mapanes, will attend the installation of officers at the Belleville Lodge tonight.

District Deputy Grand Master George W. West of Madoc

is in the city.

#### ....IT WAS MILD THEN

How the "weather is behaving this winter is coming more and more discussion." A ready the Montreal Gasatte has gone hock to the year lefts to find weather somewhat me to the year left to find weather somewhat me to the year left to find weather somewhat me to the year left to find weather somewhat the part of the earth is entering a more benoperate read. To other too great enthusiasm the utries in the read. To other too great enthusiasm the utries in the read. To other too great enthusiasm the utries in the read. To other too great enthusiasm the utries in the read. To other too find the year IFIT to Ochber and Northerniar too more sell in along the part of the first too first the series. "It is true that on the first day of IFIT Montrealers become with the fields and treets still have. He says:
"It is true that on the first day of IFIT Montrealers because in the sell of the please of the part of the part

w came.

This year the first mow fall here weeks ago and was sewhat heavier than might have been expected for it ed out the move-dearing crew.

But what will be from now on as far all heat goes is deen except for the prediction that today was to be very

#### LOOKING AREAD

Now that 190 lies before us and we have forty-nine years of neicentic and technological achievement behind its, we naturally wonder what the rest of the Ricateen Blundwick with the profession of the Ricateen Blundwick with the Ricateen Blundwick with the home and the facilities that will do noted the work in the home and the facilities and no doubt we shall know more short cases, succession between the state of the state and the home and the facilities with the home and the facilities with the short cases, succession between the state of the state and the natureme, and pay more attention to be infrincence of the minutes, which is not easy to pridel, if the past is to be our guide there is reason to believe that life will be more highly standard size than it is now. More to be worried about will be the effect of scientific and technological change on democratic institutions. The great power when of court by labor tentions, the demand for shorter hours and higher wages as more and more automatic machines are introduced—finese are the inevitable consequences of technological advance. It will be far easier to introduced democratic to make pirroducers and tousters advanced defined to the state of the stat

#### WEATHER CHANGE

Weather is aiways a popular subject and for the past eigh has been the talk of the continent. What the wea-rie and brings in a distant part of the builed States is inferent for the unusual batiny weather has been fest are of the spatis of often heavy rain and the rising of pressure areas with yaterday's rain and the unusually the range of temperature with the probabilities "much for, more furthers."

in range of temperature with the probabilists in date, more furners."

At the same time news of bissards, cold and powerful one came from the mid-ares of the United States, sup-ting the suggestion of a change in the mild spell which been in control of the vajaries of the climate in this side of the world.

encon of the world.

Ample warning was given thanks to the present day
to of weather forecasting so that it was possible for
every markingard to be taken with fires to meet the onsing constaught of cold which had been predicted.

The balmy strongsher of record days recalled to some
eier residents here a record of an excursion which was
do years ago to Manasanes in the holides was assent on

years ago to Massassaga in the holiday season, s and warm was the weather at the turn of the year.

#### STATE OF HEALTH -

"Health is a state of complete physical, mental indi-social well-being," says the January Letter of the Royal Bank of Canada.

ix of Camada.

There has been progress. "Our children — and we ourse, for that matter — have a better chance to live lip! lip! lives than has ever before been the lot of manifely wonder, however, it we are making the best of our

intunity."

A survey made in Canada by the National Committee
School health shows that the average number of days
per child is greatest among retarded pupils and least
and advanced pupils. These figures showed the state
main, giving the average number of days lost per pupil main, giring the avelage number of days lost per puyel part. The advanced pupils, the absence for guess we obligate in cities 8, all urban schools 8.1 and runal 14c. Incomal pupils the figures are 11 for cities, 11.1 for all an pupils, \$80.153 for runal, for related to 11.1 for all an pupils, \$80.153 for runal, for related to 12.1 for all an pupils, \$80.153 for runal, for related to 12.1 for all an pupils, \$80.153 for runal, for runal, for the figures seen to comment, access 12 a related to a state figures seen to comment, access 12 a related to 12.1 for all runs from grade to grade, than 11 a vall worth tyring to down absentated to grade, than 11 a vall worth tyring to down been the comment of the seen to 12.1 for all runs from grade to grade, than 12 and 12.1 for all runs from grade to grade the seen to 12.1 for all runs from grade to 12.1 for all

ETDs cost of ill health has been placed at \$135,000,000 chands in a year, while the cost of sichness, unimely the and accident in Canada has been estimated at the basel figure of a billion delians a year. Of this was interest in the signal place of the state of the

#### CHAMPLAIN'S GRAVE?

Quebec City authorities have been asked by an his-al society to delay a road-widening propect because believed the bones of Samuel de Champlain lie in the penered the bound to used. The earnest co-operation of municipal authorities may be anticipated.

Before anyone remarks that this is a lot of nonsense,

before anyone remain that this is a lot of nomemos, the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the poor. The progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on what I had been for the progress must go on the progress must go on the progress must go on the progress must be the progress of the progres s Before anyone remerze tant ten as a so do monesser, the progress must go on without concessions to a long-deaf pask, let one thing be noted; Champisin's position as the greatest Canadian is unchallenged. Explorer, coloring, be had daring and vision in something more than abundance. Above all, the founder of Quebe had faith in this land when others in England as well as France saw this land when others in England as well as France saw.

part with 1963.
The Bureau of Shinteles, reported Wednesday that of the 18
major crops in Canada, only five
—asperagus, beets, calery, corn
and lettuce — showed improvement. DESAPPODITORS YEAR THEATRE FEATURE TIMES

#### THE ONTARIO INTELLIGENCER

sat figure of the amustment world has passed bert Edward Ringling, chairman of the board of Brothers and Barnum and Balley Circus, at the

A great figure of the amessment world has passed away, Robert Edward Ringfing, chairman of the board of Hinghing to the same and Salvy Cruce, at the Hinghing were as much-loving family, Robert's Hinghing were a much-loving family, Robert's Hiber and much sharing taught themselves and evantually formed a group to play at local dances. Out of this beginning in Baraboo, Wilcounds, grew the Ninghing circum and the same and the same that great organization of today known as the Towastest Rose on Earth. Robert was a chot buy at the age of eight. During a football game on a standed he broke high, four years of continuents infollowed during which ambition to study open on which he concentrated his injects front the age of fifteen. He won't to university and soon dropped out to give his whole time to operatio study. They made his finest appearance on the stage as a burinous "Travitata" at the Brooklyn Academy of Music. During in operation care has not prose than one hunder oles of which Toolo in "Pagifacci" was his greatest part. In 1864 when he was well established in opera he was abade by his decided to accept.

His trivings for grand opens and in bunking with the Ringling Trusts and Savings Bank in Surasola, Florida. The same has been also been alarged and also been also been also been also been also been also

POPULATION "Would any country or countries in the world like to valones a hundred thousand immigrants from Mallar' and the Mancheser Guardan, poloting out that if it were so, the immigrants were ready to start at once for that laid or those lands with their povermental bensing. On the other hand "if not, there is no solution in eight for Mallar main problem, which is commission over-popular-

High Military

failable main problems, which is cumulative over-opposition.

A white paper by the Colonial Office, published before the relations, hit als alone possible new industries. But the learnfant points out that, it is not easy to indicate suitable relations, but as a tone possible new industries for an island with no coat; when power or thereto create and the only about 45, only the proper of the colonial points of the proper of the colonial points of the proper of the colonial points of the proper of the proper of the colonial points of the problem of the proper of the colonial points of the problem of the proper of

#### - BASIC PRINCIPLES OF LAWN GRADING -HOW TO ESTABLISH A PROPER FRONT YARD AREA

On account of dailine reverse is susceimen becomes necessary to enablish a flow four of which will permit a full M<sup>\*</sup> to the four full from homeson flow to the owner. To accound and lawy this house from appearing solited, a strence will be accounty. Below see the languam sections belowing these common errors in grading and these actions which will an the most photology effort.

If the property is much higher than the street, a retaining well tre sry substean. This will be illustrated in a following article.

Terrace slapes thould be preparationed to rise not more than one fast to three unit one helf feet. The crown should be well rounded to facilitate moving. On storper slopes is in difficult to establish a laws and it inconvenions the moustone.

CARDENCYCTURE SERVED

THE ONTARIO INTELLIGENCER

E STEER PROPERTY AND ADDRESS OF THE PARTY NAMED IN

NEW ERITHE COSMONS
Out of the rubble and destruction which came with the
Second world Was there has arisen the new British House
of Commons, to take the place of the Commons, that has
closed structure within full victim to Cermania essays
and wanton destruction in the Second World War.
The new builting which will cost nearly two million
pointing which will cost nearly two million
to the common second that it will
be in new for searman secondarion of Partiament this
of the less for the sustame secondarion of Partiament the

year.

The old building was hallowed by history and by the record of the freedom and democracy of the British people. Art the new structure while it replaces the old, has the same traditions deeply rooted in the people of the Old Country, that duamies sense or liberty and that sense of justice which have given British her paramount place among the nations of the world for the long centuries of

among no assesses a use warm for use any containers of the history.

The House of Commons of the British people, whether people of old, exahtines the soul and spirit of the nace, which has spread fit benign infrance among the nations of the world. The spirit of the ancient Commons will be in the new House for it is the embodiment of the spirit which was in the old.

in the old.

The old building was precious in the sight of the British people and its waits had beard many addresses and debased renoyed down the ages, and appeals which have stirred not only the British people but lowers of freedom recrywhere who look to British as the centre of freedom and democracy for her hatory has blent the standy growth and development from precedent to precedent in age after

and development from precedent to precedent in age after "One of the great figures of history who will be there when the new structure is opened will be the great leader Winston Churchill whose thrilling speeches in the often Winston Churchill whose thrilling speeches in the often Winston Churchill whose thrilling speeches in the often Germany stempted to dely the Channel and invide the Motherland of the British race. Monty Britcane beside Mr. Churchill and others will be there to a telescond to Churchill and others will be there to a telescond to Churchill and others will be there to a telescond to The long flattery of the growth of the British Committee then for mind the way many Commons. The British Committee of the Monty Statistizater, it has behind new for its high and the way many Commons, the behind new for the Monty of British Commonwealth or that current of freedom which has been flowing for many contrains carrying benefits of liberty and democracy to the middon.

Between the British people and other democratic peo-ples are unbruken ties and when the Commons is open-ed it will be an event of the democratic world for what if has means in times of peril and in peace.

has meant in times of paril and in pasos.

The fine work which is being carried on at 8t, Durstan's The fine work which is being carried on at 8t, Durstan's In Busser, England, is expended in a report of the United Kingdom Information Office dealing with the 4th anniversary of this institution. The report is epity entitled "Lighten Our Desiranes. "The course lasts for from cost for four year extended to the course of t

establishment on diszinkishing scale for at least the next the next that thirty years. Inthirty years, which is the state of the state

These whe seem to lead the public taste, are, in general, merely outrunning it in the direction it is spontaneously pursuing.—Macaulay.

Some books are to be tasted; others swallowed; and some few to be chewed and digested.—Bacon.

STORDE -

RUSTY RILEY By Frank Godwin

One of a series of photographs from Communist-the moss shows Chinese Nationalist Gen. Sun Li-Jen in conside rifle training on a target range. U.S. Senator WI owland, of Chilfrents, who brought the pictures back to Washing-after the 20,00-mile flying try through the Far Enst, is obser-ation the general. Became of annountition shortups, the troops de-ducing island against Communist threat are limited to 17 remains on on the range. Left, Sunster Knewland watches a years Chinese on on the range.

### BRAVE FOLKS

Intraders into home of the deed with a resistance they do not capet, many officer of the white carted the story of a woman who was faced by a young handli who opened her door and pushed his way into her home. No doubt not thinking of any consequence but of getting rid of the youth who had started on the road that goes to still be homewife brained the youth or switch the started on the road that goes to be a superior of the started on the road that goes to still be a sea to be superior to the started on the road that goes to start the started on the road that you had happened. The woman was no doubt one of the mild foll who when round can terrify even a bandit. She was here. In window hat Friday night three burgiars were recovered by the owners. The very same swealing another refinition redden chased and captured a many think prompted has window fall on the lattice two incidents of the same than the same that is also potated out that may be citated in some officers and the same that the same that is also potated out that may be citated in some officers and the same that is also potated out that may be citated in some officers and the same that the same that is also potated out that may be citated in some officers are a poor lot."

### FROM THE LOOKOUT TOWERS

There are a total of 290 lookout towers strategically situated in Ontario's fire district with fifty more towers on order, says Forest Protection Chief T. E. Mackey, according Woodland World. Ten years ago there were 145 steel wers and 89 wooden, the latter being gradually replaced the steel lookouts.

This is part of the program for better fire protection An unusual development iii brought iii attention, ex-

perimenting with water bombing. Tests with this system are encouraging and further work in this matter is being carried out, it is reported.

It may be brought to attention that in 1948 aerial abing of fires was experimented in by the American Air

Dombling of fires was experimented in by the American Air Frows and U. R. protection agencies. It is stated by an eval-uablion board that "laints containing estinguishing agents can be dropped with enough accuracy to hit and retard the spread of small fires. Air. Mackey stated that equipping all patrol planes with cameras, carrying of suppression crews and five equipment on regular patrols of using the periods of the equipment on regular patrols of using the periods of the year known as the "high hazard" times, and the use of radio in field operations are considered as important steps in fighting the fire menace in forest areas last year. Landing strips for forests in inaccessible parts as a

Landing strips for forests in inaccessible parts as a cans of combatting fire was recently recommended.

### WHOOPING CRANES

In April last year 28 whooping cranes set out from their winter sanctuary in Texas for their traditional sum-mer journey to the Canadian North.

Somewhere in the sub-Arctic, the spot hidden from

those who were eager to give the great birds protection, the cranes settled down to their domestic duties. The summer over they turned south again, and the National Audubon over they turned south again, and the Naucosal natures Society reports the arrival of 29 souths in the Teras sanctu-ary — one seems to have been picked up along the airways —plus four young birds. They bring to 36 the known living whooping crames, the total including three in cap-

The whooping crans stands more than five feet high, has a wing spread of seven feet, and its raucous cry can be heard for two miles. But not many hear it any more. The species is 36 whoopers from extinction, and its secretive ways make protection difficult. The females lay but two eggs a year and they show little inclination to breed in

There was a time when flocks of these lovely birds darkened spring akies in the mid-West — the time when buffulo ranged the prairies in source of thousands. The buffulo were saved, but whether as much can be done for the whooping cranes remains to be seen. Four young birds in 1948 give some hope, but not much.—Ottaws

#### DO YOU KNOW OF A CRIPPLED CHILD?

Since its organisation in 1930, the Rotary Club of Belleville has provided medical care for over 800 cases of Crippled Children. Hone of this number has been an experimental case, but each case has been carefully studied, and, when necessary, transportation to distant medical centres arranged for in order that the child will receive all the care and skill which medical science can provide. No case is ever closed until complete recovery is achieved or until everything that is recommended for the child has been done,

This service is not confined to the city alone, but includes the surrounding community. While we are continually searching for children who are crippled in any way, Rotarians feel that there may be some cases which have not come to our attention to date: Therefore, we are appealing to everyone to so advise us if you know of a crip-pled child whom we might have the opportunity III caring for and restoring to good health.

HAVE LEARNED TO SAVE

Make Examined TO Make To Make Make Make Make Standing are beying swrings bonds than ever sets is the popularity of this means of investment and tilling up reserves at a time when it is possible to save and it away bonds. The fourth series brought out 61,168 person tirrestors under the parroll savings plan or 971,40 for combined parroll and other sakes. In the recent state sake the everyes purchase was \$11,128 as agained \$10.166 for the birth lines and \$313,037 for the second \$10.166 for the birth lines and \$313,037 for the second was to be a second to the same way to be a second to the same and t

application over the four pears reflects its increasing popularly among regular buyer.

People have learned that it is true that "overyone has menthing to save for."

It has been pointed out that it per cent of the 3,000 larger employers made the payrol plan available to surper supplying said the continuing success of the fourth series is credited, in large part, as the result of the whichest support of the plan by the Canadian ampleyers from coast is coast.

HISTORICAL BOMANCE

This age, defranced as it is a scientific programs which is delving the defranced as it is a scientific programs which is delving the state and has boose of being projected through space at an infinitely great rate of speed, is after all, an age in which an overwhealting interest is given to bistory. This is natural for the fact, will sleways remain that the proper given of manked is main, which to many in this period masters the study of middle at main, which to many in this period masters the study of the state, and we present the study of the state, as we propose of the world, but they have not note erras.

Americans and Canadians are among the prompts of the world, but they have the blactor accurate too the state of the

med. Beeding history through the historical novel has an attraction which bers history without imaginary characters cannot have. For many the historical novelies populates succher country or age with figures which fit is creating or recreating and given the though or recreating and given the though the fit of acoustic or is a form which has a very large nondern of acouster time in a form which has very large nondern

Hervey Allen started a trend in the fiction world Hervy Alten started a trend in the fiction world — the bugs novel which contains more words than a dictionary though not more separate words. Like historical novelides he revised a world, that on much of the spirit and form of the ern of the Franch. Emperor. Intagants novels popule of the twentist no entiry can wanter and come to under-stand people of another time seen through the been obser-uation of the historical writer.

Their place in the world is assured for they make the t live and they educate the present into the lives of ple of other eras.

NATURE VS. MECHANISM

The mechanical wigand on mechanical brain will never emphasis the human brain which is one of the suprems married of life. The robb brain has its future but not in the same class as the natural brain with which every coming into the world of as a robot, performing what it is not to be supremented by the same of the same of the same of the same of the performance of the same of the same of the performance of the same of the

and to do because it has not any will and because it as any enter thing.

In thing, the property of the proper

### Revival Meetings In Reformatory

Yesterday's plans for to-morrow may be out of date to-day. Changes in family and business, altered securces and income, higher taxes and succession duties, new laws and regula-tions—all may affect the best laid plans;

none—as may arriver me how fold plans;
Your Will is your plan for the future security of those you wish to protect. You owe it to your family to check your Will perfodically in the light of changed conditions and when necessary amend it to guard better their interests and avoid manufacture.

Backer Your Will once a year, Each it over with on.

According to the Quinter District weekly information port of the Department interest in tree growth of been port of the Department interest in tree growth of been marked. One individual is considering the process of Christmes tree farming and has placed an order for 000 trees. However, there is a possibility that the opportunity be set that this order cannot be filled complying by says be set that this die order cannot be filled com-

taly.

The large numbers of trees sold every year in the holiday season is an assurance of the continued de and for these trees which make an apt a decoration anding for the festivities staged in the weeks at the tun

mitting for the fruitvilles slaged in the weeks at the turn of the year. The coulcok gives premise of growth in this business in the inture. This is good sever to those who whate such gives for the setting which they provide fror Contentanatol of Teres as an appeal about a growing young force of frees, such as the Sanchanker jalantation has come to be sind there cannot but be the same appeal in a freest of young everywan set out to grow into Christman trees for they were about 20 miles force a young freest by its file years about 20 miles force a young freest by its

next nature. Progress in such an enterprise will attract attention is, there seems an assured market for that type of tree which suits or well the Yuleide setting. For age certain reis of the evergreen type have been associated with Yule and Christmas as having age-long connection with and sing part of the animal further.

being parts of the annual festival.

DO YOU KNOW OF A CRIPPLED CHILD? Since its organization in 1920, the Rotary Club of Belleville has provided medical care for over 800 cases of Crippled Children. None of this number has been an experimental case, but each

case has been carefully studied, and, when necessary, transportation to distant medical centres arranged for in order that the child will receive all the care and skill which medical science can pro-

but includes the surrounding community. While we are continually searching for children who are

crippled in any way, Rotarians feel that there may be some cases which have not come to our attention be date. 'Therefore, we are appealing to everyone to so advise us if you know of a crippled child whom we might have the opportunity

# COMPARATIVE PRICES

what they EATON'S ADVERTISING

Comparative prices are common currency in advertising. They're expressed in many ways, in terms like "Regularly" — "Ordinarily" — "Ordinarily" — "Made to sell for" — "Worth twice the price" — and so on — phrases that are sometimes meaningful, sometimes misiteding, often hard to prove or understand.

We would like our customers to know how we at EATON'S use comparative prices in our advertising .. how we limit their use by strict regulations to ensure that their meaning will be consistently clear:

When we quote "comparative prices" - that is, compare an EATON special When we quote "comparative prices"— that it, compare an RATON special price with the ordinary price presulting — a thorough survey is made of the local market — to make certain that the special price to be quoted is substan-tially lower than the price at which this article is precently being sould in other stores as well as our own. Only when this condition, if chillified will we quote comparative prices in our advertishing.

comparate prices in our savetuang.

Whenever we quote a "regular price", we refer to the last price ill which
the merchandise was sold at EATON'S—even though that price may have been a
reduction of an earlier "regular price". Thus, if we sell an article at 485, reduce ill to 389, and later on reduce it to 289.— il will be advertised as Regular Special price 2.98.

We service an article "Regular 4.95, Special Frice 3.23," we mean that this same article has been selling for some time on our counters for the regular price and has been reduced for some specific reason, which we state — such as "ends of lines" or "broken sizes", or "discontinued styles".

These strict limitations on the use of comparative prices represent only one of the many rules we rigidly-adhere to in order to safeguard our customers

In this—and many other ways, we work hard to keep our advertising clear and true and accurate — because we value above all things your confidence—and we safeguard it by sticking to this simple, straight-forward rule.

EATON Advertising must mean what it says ... and say what it means! T. EATON CO.

# DO YOU KNOW OF A CRIPPLED CHILD?

Since its organization in 1920, the Rotary Club of Belleville has provided medical care for over 800 cases of Crippled Children. None of this er has been an experimental case, but each case has been carefully studied; and, when necessary, transportation to distant medical centres arranged for in order that the child will receive all the care and skill which medical science can provide. No case is ever closed until complete re covery is achieved or until everything that is recommended for the child has been done.

This service is not confined to the city alone, but includes the surrounding community. While we are continually searching for children who are crippled in any way, Rotarians feel that there may be some cases which have not come to our attention to date. Therefore, we are appealing to everyone to so advise us if you know of a crip-pled child whom we might have the opportunity of caring for and restoring to good health.

RIDING BACKWARD SAFER THAN YOUWARD

In the future, sirplene passengers may ride backward for pro-terior against crash injuries as a result of tests made on this recited said at Elewisch Air Torca Bans, Murro, Calli. One of six volum-thers is abown being strapped into the seat on the device, called a "himma decoleration." Gaided by rathery tracks the sied is propolited "himman decolerator." Guided by rillway tracks the sled in propalite by solid field rockets into a series of mechanical brokes within stoy it with a force optivalent to that experienced in actual crash land-tags. When seated in a bestward position, the volunteers were able to withstand greater forces than when they were sealed in a forward position. — Crotral Press Canadian.

# NO INTERRUPTION

THE POWER INTERRUPTION ARRANGED AND ADVERTISED FOR THIS WEEK IN THE BELLEVILLE RURAL AREA

DUE TO THE LINE CREWS BEING ENGAGED IN THE REPAIR OF LINES DAMAGED BY THE RECENT

HYDRO ELECTRIC POWER COMMISSION OF ONTARIO

#### BY CONTRABLES

January this year has perhaps lived up to the double uning it originally had in the same of the Roman deliy as given by the ancient rulers of the words, the Roman deliy as given by the ancient rulers of the words, the Romans of the Roman deliy as the section of the section of the Roman delivers of the section of the Roman delivers of the Roman delive

superied than rain. The month has been running almost by contraries as in the British Columbia part of the continent but in firmul faillon, where been success storms, where floods near-sero temperatures have dominated and practical tided up novement in many parts of the province. Whothy seems to have come forward in the salumn po-letal tide would be a mild whate in Bakenn Beford have the salumn by the salumn by the salumn by the last tide would be a mild whate in Bakenn Beford the salumn by salumn

s. Lunday's gale with gunts of wind up to 63 miles as sociated with mild weather was something of a rec-these parts. A bilesard in winter with heavy drift-tid have been more natural than rain and gales.

#### POWER DEMAND HIGHER

The monthly lead stummary released by the Hydroctric Fower Commission of Ontario for November shows a chastlerable increase in primary power demands that leads plus cuts) over the corresponding month in 18, for all three of the Commission's distribution sys-

is.

In the Southern Ontario System there was an increase
II.4 per cent, due in large part to the fact that in Novemof this year there were no affocations of power to munialities and rural operating area, as was the case a
r ago. The increase is also accounted for in some masign. The increase is also incomuled for in some mea-by the arturn to standard time effective in the latter of the month in those nuncipalities which had con-did to operate on Designite flowing Time, alya a Silydor inclease. Increase for the Thunder Day System, mind to 77A per can one was tay vary, figure, the prin-iple of the control of the Saministiquia Power Com-rigation of the Saministiquia Power Com-rigation of the Saministiquia Power Com-rigation of the Saministiquia Power Com-struction of the Saministiquia Power Com-traction of the Saministic Power Com-tr

hed that — telediqueous is Judgment Delty by The SO DITELLIGIESCEN LIN

Fifty Brilish schoolboys have an interesting time be-titem and many a Canadian lad will envy them their legs of enjoying such experiences as their summer siton will bring the boys from England, Scotland and

less of employing such expertances as bade summer than will bring the bony from Rangiand, Scotland and Lond.

Andat bory have read stories of the Sorth Polar area, as a gripping as real life and probably more theiling, as a propriate and the stories of the Sorth Polar area, as a gripping as real life and probably more theiling, and the stories of the Sorth Polar area, as a gripping as real life and probably more theiling, and the stories of the stories

#### LOSS OF THE TRUCULERY

The staking of the British submarine Truculent which sent to the bottom in a very few seconds on Saturday that to seryone a sense of tragic horror in the impos-that so many of the brave crew were carried to their this is many of the source drew were octical to their in. There was the inevitable feeling of the helples on a which the criwmen were at the time of the col-fluman nature inevitably shrinks from thoughts of a tragety which means the death of so many brave the sense in his hostest prot the production they could see the harder prot the production they could see the harder prot the production they could see the harder prot the production of the protection of the second of the second of the protection of the second of the protection of protection of

PRESENT AND A STATES AND A STAT that some of tragedy there shone the bright light an courage as men dured to do anything in the lly that the lives of their comardes could be saved. by knew the chances were slight. They had been ough at sea to know that.

tory of the sea is one of man's gradual conques of the dangers which seamen meet in the course

voyages, nugh the world realised the possibility of the worst sople watch with bated breath to hear if any more is first who had been reported safe might be found hough in their hearts they almost surmised the it came out at last, that those who were saved at our the dissurfer seen all this seemed.

It came out at last, that those who were saved at it the disaster were all that escaped. Truculent was struck such a blow that she went

Truction! was struck such a blow that she went-edity and that fact explains the heavy loss, debt the free world owes to the men who go to in ablips everyone realises and therefore there is a disease of tragedy and sympathy in the magnitude insafer. Men and women feel deeply that those i gave their lives for security of their people and for subs and that they died hereos?

is not a head merely, but a heart and resolution the real philosopher. — Skaftesbury.

ophy makes the mind invincible and places us reach of fortune, so that all her arrows fall short

His mighty influence goes on and now about 450 years
after the first peremitation of the Bance has teady grown.
Rainces and the castle more lasting than the hills.
Rainces' institution is a good Dennish way of paying tirtude to in mester poet who has immortalized scenes in that noble
this country.

in master poet who has immortalized scenes in their noble.

Before is a charming community of commercial and market people, it miles from copenhagen. The poet has a castle, Kronborg, buttle in 1380, which was cost the defence of the town and on now mainly a prince. Whether thinks posses had seen the market people a prince of the contract that a cost matter but it was in the contract that and in the castle that many of the play's scenes are laid.

So great is the power of human imagination to make market and the prince of the play's scenes are laid.

So great is the power of human imagination to make market market in the play is scenes are laid.

The same are the set of the play's scenes are laid.

The same are the set of the play's scenes are laid.

The same are the set of the play's scenes are laid.

The same are the set of the play's scenes are laid.

mortal tragery. Francy can appear more true than life in it. Is a fitting intoluce by the Durish people to the word's master playuright to have the British players reported to the tragery of the people of the support of the people of the support of the people of Estoner will be carried away by their emotions as a every autience has been carried at the will of the master playuright's fancy and pootly. The spirit of broading on the mysteries of life which the master poot creates through his great playe even in this life and the poot of the world's hattory and in any self life fait by all who of the world's hattory and in any self life fait by all who of pobelia. Hamilton tragedy inch, the agony of the Queen Metches Gertrude and the little rend of the lecherous and we life faithful who falls a victim to it come trackery and brings cleants who falls a victim to it come trackery and brings others to their door attention that the master.

It will be another triumph for Shakespear's fame that his jeamed lines so long ago this not only an entire people but a world will take par in that journey of the Gid Via Campany of London to appear on a stage built especially for the occasion in the courtyand of the eastle made famous by a post playwright so long ago.

There are moments when our passions speak and de-cide for us, and we seem to stand by and wonder. They earry in them an inspiration of crime, that in one instant does the work of long premeditation.

JUST FOLKS By EDGAR A. GURST syright, 1990, Edgar A. Guest)

LIKE AS WE DO

as a hitter man who found . Most people pleasant? Shop or street,
Only the churlish ones I meet." round.
smiled at him but mos,
and then

and then ded not to smile again. since he spoke no friendly word, on a greeting gay he heard, re'er I go clerks seem to be tred to have to wait on me, re all allke!" he'd often say-

We shape the world in which we live, Receiving as we think to give, This is a truth that's quickly Journes! Who growns will see a frown returned.

Movie Column

And Minker both the service of the s

something, and I was power, as the state of the state of

sell. Thus, others may get a bett-rendre.

Recently I conducted the match int duplicate for the Spoknas int duplicate for the Spoknas blick out of mose of the deals likely out of mose of the deals filled out of the spoknas files about them. Deals at the layers. Salect a seat of your own noming and decide what you ould do in sech case, Assume, of the spoknas of the spoknas of the main set the other players.

The first board is abown here:

WOOLES

Wooles—Mr. and Mr. George
Adams left last week for Florida
where they expect to spend the
remainder of the winter,
The fixey, W. G. The the winter,
Mr. Gordon Quinn was not
hother in British Columbia
whether in British Columbia
wednesday, Mr. Quinn was a

"line swinger."

These is maneury in a consider a surface as whether eart should be a compain why man and a compain why man and a compain why more hide are made sill the measings thereof.

Then we can falls of other matter, Such as whether south should go to five diamonds, if so, whether eart should go to five diamonds, if so, whether eart should go to five diamonds, if so, whether eart should go to five diamonds. If so, whether eart should go to five diamonds, if so, whether eart should go as clubs.

# 1950 CHEVROLET

FIRST ... and Finest ... at Lowest Cost!

Chevrolet for '50 brings you the best of everything at lowest cost...
greater beauty... finer performance with economy...
outstanding driving ease, comfort and safety!

Here in Chevrolet for 1950 are the finest motor cars and the finest values the leader has ever offered to the motoring public of Canada.

These thrilling new Chevrolets are available in 11 surpassingly beautiful Syleline and Electline body types. They are powered by a greatly improved engine — described in detail elsewhere on this page — which still further advances their renowned performance and economy. And these new Chevrolets also bring you quality feature after quality feature of styling, riding comfort, safety and dependability ordinarily associated with higher priced cars, but found only in Chevrolet at such low prices and with such low cost of operation and unknee.

Come in. See these magnificent new Chevrolets for 1950- the smartest,

liveliest, most powerful cars in all Chevrolet history. See them and we believe you will agree that they stand out as being FIRST ... AND FINEST ... AT LOWEST COST!

HIGHLY IMPROVED, MORE POWERFUL VALVE-IN-HEAD ENGINE!

WITH POWER-JET CARBURETOR AND LARGER EXHAUST VALVES

Canada's Best Seller CHEVROLET Canada's Best Buy!

### NOTICE

The Building and Contracting Business former-ly owned and operated by my late husband MR. M. F. RUTHERFORD, has been purchased by MIL. JOHN V.WHITE, as of December 23rd., 1948.

The E. F. Rutherford Estate will pay all soco ewing up to and including December 21rd., 1949, and Mr. John V. White will be responsible for all accounts owing after December 23rd., 1949, in on nection with the business.

I wish to thank all the friends, business as clates and customers of my late husband for their many kindnesses and past patronage and I sti-cerely hope they will give this same patronage to Mr. John V. White, who was associated with my late husband.

### RESTRICTIONS ON LIGHTING AND SIGNS SUSPENDED IN **SOUTHERN ONTARIO** 7:00 p.m. to 7:00 a.m. AND WEEK ENDS

Improvement ill water conditions lil the Southern Ontario System as a result of the recent rains, now anables the Commission to meet normal demands during night hours and on weekends. Therefore, commencing Monday, January 23rd, restrictions on the use of electricity as set out in Part III (Lighting) of the Regulations put into force October 1st, 1949, are suspended in Southern Ontario between the hours of 7:00 p.m. to 7:00 a.m. Monday to Friday, inclusive, and from 7:00 p.m. Friday to 7:00 m.m. Monday.

It is necessary, during the daytime hours, that the Regulations be strictly observed from 7:00 a.m. to 7:00 p.m. Monday to Friday and that voluntary conservation be continued, particularly during the peak hours, 11:00 a.m. to 12:00 neen 5:00 to 6:00 p.m.

PLEASE SAVE ELECTRICITY DURING DAYLIGHT HOURS

This easument of Restrictions applies only to Southern Ontario.

# **'blue coal' HOMES THE WARMEST**

# IN TOWN!

# Steady, Healthy Heat, Too, From Even-Burning 'blue coal'

Yns, you can feel the difference with blue coal." blue. It gives that good, acedy, beatby warmh in every coom. You sail through whiter in coay comfort and you're worry free because it's fast that fewer falls. Remember, blue coal is hard coal as in fases—why accept less when it for? Poos us today and have you bin filled to the brim with famous "blue coal."

## BRING YOUR FURNACE UP-TO-DATE

The 'blue coal' TEMP-MASTER with "Electric Eye" gives the emy-going comfort of automatic temperature control. Seves up to 30% on fuel bills. Ask for free home demonstration.

HARRY SMITH COAL COMPANY

152 PERMACULE STREET

1950 buy word for thrift

and solid value!

CIVE your new-car money a chance to buy you Canada's top value iii a moderate-price automobile this time.

Step out of the groove of habit and into a Studebaker showroom. Come in and treat yourself on a close-up syeful of the artershingly new and different 1930 Studebaker Champion.

new and different 1995 Studebaker Champion.
Watch how completely this Studebaker wins
you when you go for a drive!
Low, long, alloring, this shifty 1995 Studebaker is really 1996 all the way through. It's
far our abend in "near ride" as well as in
"near look." It's the fastest selling new car
in Studebaker history!

complaining why we haven't been advertising as much as we used to. Well, the main reason is that we know that in the months of December and January most folks have obligations arising from Christmas Shopping, and together with having to pay for fuel and winter clothing, people just aren't in the mood to think of automobiles.

However, we don't like complaints, so here we go again:-

and farm telephones . . . telephone users placed over 10 million calls daily . . . service was faster,

better in every way. It took lots of work and lots of money.

as unca son ou work ann sont of money.

Money for more telephones, buildings, writeliboards, wire, cable, pokes. Money to pay fair
wages to 21,000 ulephone men and women. Money
to pay a reasonable return to the \$5,000 Canadians
who, by foresting their savings in the telephone
business, have made its expansion posible.

Despite all we were able to do, 1949 ended with thousands of people still waiting for telephones and with many needed improvements still to be completed.

Only a flouncially locality company can on our the hig job yet to be done. Telepho-users, employees, shoreholders—urarys has a vital lateral ill a service that mee

STRANGE AUSTRALIAN PAINTER

STRANGE AUSTRALIAN FRANCES.

Under the patronage of the Australian Embassy and EEOO, a strange painter, Sidney Rolan, has been must be a strange painter, Sidney Rolan, has been mine Kleber, says French Information Service.

The term fittentracter "rather than "painter" perhaps the describes this sidiet who bild in twenty-two large and the strange of the strange of

state describes this artist who this in twenty-two large suppositions the adventure of the outlaw Ned Kelly who, is seventy years, defied the police of Victoria until he was naily caught and hanged. The story is wirdly told in he pictures and is embellished with Australian folk lore-he paintings could be reproduced to illustrate an excellent ture story and this is quite possibly the use to which will be put. The painting is primitive and the figures in the var-

The painting is primisers and use righted in the var-just eplaceds are like markinestics but there is life and tgor in the story. The events take place before great-tretches of desert, sometimes with sides of delicate beauty, iddeep Nolan takes his place with those attack is ill sincerty and simplicity that our age welcomes and acclaims when it

Under the heading of "Studies for Peace," New York imes takes up the world situation in which "after four of a half-years the nations find themselves as yet unable put a formal end to the war or To make a formal peace this their former enemies."

this their former ensembes."
This, anys the Times, is "an unprecedented develop-ont in modern times, especially when compared with the remailies conference, which wrote a pense treaty in seven-nonlies and even with the 'dancing' Congress of Vienna-hish in a allightly longer period ceitabilated a peace that steed, with minor inferruptions, for a century."
The attitude of Risusia is of course one of the causes

The attitude of Russia is of course one of the causes the Soriet's revealed set by selegar and its solidarily with its alities and embarked on its own causes of conquest. Monther cause is becoming evident, "the fact that the Western Alites in their search for peace, cast andé the trailed the search of the Western World as a close to the search of the Western World as a search of the western which we will be search of the western which we will be search of the western which we will be searched the search of the western which we will be search to the western whith the western whith the western whith the western whith the

If necessary.

The 'Western Powers have gone to work on a formal study of how to end the state of war with Germany and there will be a conference of the three greater nations. Britain, France and the United States and the Benelux nations to seek an agreement on a method to end the formal time of the state of the sta nations to seek an agreement on a method to end the for-nal war. Difficulties are seen in the way especially if Sussia continues as she has been doing for a long time.

> JUST POLES By EDGAR A, GURST (Copyright, 1900, Edger A. Guest) NOT ON THE BLUEPBINT

and go away they say: "The house is ready; you may enter il today."

n the final task is finished and the roof and walls are slout, hey know that brick and morter can't keep needless learnaches out!

They will bear the wildoot weather when the wind storms begin. But what about the bitterer atoring that sometimes start within?

EATON'S suggest you visit their pattern counter . they will be pleased to help you choose a pattern to your intividual liking, or effer eny suggestions you may wish. Ceree in new and see the wide selection of new patterns featuring the Islant Spring styles by Butterick and Simplicity.

**ACCURACY** is the keynote of every EATON Ad!

ter When we quote "comparative prices" — that is, compare an EATON special price with the ordinary price prevailing — a thorough survey is made of the local market, to make certain that the special price to be quoted is substentially lower than the price at which this article is presently besold in other stores as well as our own. Only when this condition is fulfitled will we quote compe tive prices in our advertising.

This is one of the many ways in which we apply the hard-and-fast rule that—

EATON ADVERTISING MUST MEAN WHAT IT SAYS AND SAY WHAT IT MEANS!

SOONER OR LATER -

You'll want the best!

One thing is certain—television is here to suy. Right now its novelty may outshine its brilliant future as the world's greatest medium of entertainment.

But, sooner or later, every television owner will seek the best... the bright, clear image ... the marching quality of rich, distortionless cound... the ruly enjoy-able reception of TV programs which Westinghouse makes possible today ... even under present Canadian conditions in "fringe" reception areas.

#### YOU CAN BE SIGNE WITH WESTINGHOUSE Westinghouse "DX" Television is designed and engineered for Canadian conditions.

In 16-the chassis is specially created for improved reception in "fringe" areas, dependent upon telerision programs from relatively distinct rations. It superb FM sound system and 10-inch speaker provide sound quality to match the clear, bright image of its 10-inch viewing tube.

And it is encased in cabiness of finest craftsmanship, worthy of the lasting satisfaction you will find in owns-ing and enjoying television at its best.

Your Westingbouse dealer will be pleased to advise you regarding television reception in your individual location.
